DETAILED ACTION

1. Claims 1 and 22-28 are pending.

Allowable Subject Matter

2. Claims 1 and 22-28 are allowed.

The following is an examiner's statement of reasons for allowance: The cited prior art, Toyoda, Eguchi, Firth, and Zhang teach systems that combine facsimile and electronic mail functions into a single unit; however, the cited prior art fails to teach an apparatus performing facsimile and email procedures that includes a destination input unit for entering a character string corresponding to a destination where the input unit selects between email transmission and facsimile transmission based upon the contents of the character string (see Applicant's remarks Pages 6-7). As such, the cited prior art fails to anticipate or render obvious the above cited claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2134
